The **JST Virtual Workshop Series** returns with a fresh programme in the new year, featuring an excellent line-up of scholars sharing a wide array of their projects-in-progress. All workshops will take place on Zoom and last approximately 90 minutes. Admission is free and papers will be pre-circulated to our mailing list. Each session will consist of an informal 15-minute introduction by the presenter, and the remaining time is dedicated to space for questions, comments, sources, and suggestions by the participants. Our goal is to encourage growth of the discipline and the collegiality of its scholarly community in a safe, encouraging environment for postgraduates, ECRs, independent researchers, and established faculty alike. Project titles, abstracts, and presenter bios can be found via the link below. Email [darren@jdb1745.net](mailto:darren@jdb1745.net) for more info or to be placed on our list of contacts.
